RCC Spring 2022 CSS Final Project Grading Sheet - 300 Points (+50 Extra Credit)
Due Thursday June 9 by 11:59pm: Upload to Canvas (zip up the folder containing ALL final project files) and submit that zip file.
Lateness: Accepted Friday June 10 until 11:59pm with 10% deduction -- not accepted at all after Fri June 10 @11:59pm

Name:_____ Score:_____

HTML Changes -- 20 pts (5 pts each) – Only change what is necessary – leave HTML structure alone!

___ **/5pts All pages**: Hotel name substituted everywhere, page titles need hotel/student name, footer needs address & image sources.

___ **/5pts FAQ page**: New question and answer at beginning of list indicating the story behind your Hotel theme.

___ **/5pts Events page**: At least 5 new different calendar events fitting the hotel's theme (no duplicate events)

___ **/5pts Testimonials**: Rewrite / add at least 1 new different testimonial for each page (except the home page) – 5 new ones total.

Common Styles (common.css) -- 200 pts

___ **/15pts Page Styles**: body styles for background properties, page margins (top, left, and right), padding, text color, font size, and font-family (for all normal page text). Other properties are optional. Page wrapper styles also go here but are optional.

___ **/10pts Header Area Styles**: styles for top heading area (includes the h1) & should be treated as a banner area -- a background can be used & a height given, and a logo can be absolutely positioned into a blank area of it (see logo positioning styles item below)

___ **/20pts Heading (h1, h2, & h3) Styles**: 4 rules: Set font-size unique for each heading, and 1 more rule to set common font-family & color for all 3 to use. Use 1 or more web fonts (like Google fonts) that fit your theme. Use text-shadowing to enhance headings.

___ **/5pts Intro Article / Primary Article Styles**: use at least 1property to differentiate each page's intro text area from the main text

___ **/10pts Footer Styles**: use at least 2 properties to deemphasize the copyright area text

___ **/15pts General Link Styles**: use color and text-decoration properties to uniquely style each of the 4 link states (4 separate rules)

___ **/40pts Navigation Bar Styles**: should only affect links within the nav area
   ___/10pts On the nav bar itself (nav and/or ul and/or li) to remove bullets, make nav bar horizontal/vertical, etc.
   ___/20pts On the links within nav bar: to make buttons that change when hovered. All 4 link states must be set.
   ___/10pts On the current page's links: to make it look and act like it is not a link and to make it stand out from the other links

___ **/15pts General List Styles**: set bullet shapes (disc, circle, etc.) & themed images to uniquely style outer and inner bullets. Outer bullet images and shapes should be emphasized (stand out) more than inner bullet images and shapes.

___ **/20pts Testimonial Styles**: use at least 2 properties on each of these 4: the surrounding testimonials article, the testimonial divs, the quotes, & the speaker paragraphs. Optionally format the testimonial h3. Goal is to highlight & consistently format each testimonial

___ **/15pts Logo Positioning Styles**: use background-image, width, height, position, top, and left or right to absolutely position your hotel logo image. Use the "positionme" div for this. Your CSS should position it up within a blank area of the "header".

___ **/35pts Multi-Column Layout Styles:** See "Final Project Layout Guide". Use one of the given 2 or 3-column layout designs on all pages. The Grid & Flexbox layouts are best. Up to 10 more extra credit points can be earned for smaller screen "responsive design".

Custom Styles (custom.css) -- 60 pts

___ **/25pts Events Page** Calendar: 5 rules (5 pts each) to format: table heading, days of week, date numbers, empty day cells, & events.

___ **/15pts FAQ page** Question & Answer Styles: use at least 2 declarations for questions and 2 for answers to make them distinct from each other on the page & enhance page appearance.

___ **/20pts Services Page** Figure Floating and Border Styles: float 2 figures/images to opposite sides of page and set inner side margins only using each figure's given id, then set common non-solid borders to both using given image class. Format the caption text too.

Images: Use of 4 Required Background Images, Hotel Image, & 2 Required Services Page Images -- 25 pts

___ **/25pts** Each of the 4 background images is different & tied to the theme/color scheme, appropriately sized, text is easily readable on top of it. Possible bakcground image locations: 1 on the body or wrapper, 1 on nav or 2 on link buttons within nav bar, 1 on the calendar, 1 on testimonials, 1 on heading text replacement, and/or 1 on any other element on all pages. One well done gradient background can count as 1 background image too. Hotel and service page pics must be appropriate for theme and sized reasonably.

CSS Code Quality and Formatting -- 25 pts

___ **/25pts** CSS code validates, is easy to read, rules are indented consistently, blank lines help readability, lowercase selectors, well organized rules, rules placed in proper style sheets & sections, good choice of selectors, shortcut properties used where appropriate.

Site Design, Theme Integration and Color Coordination -- 20 pts

___ **/20pts** Theme was approved and is appropriate. Theme was integrated well into site's styles, including Web fonts, color scheme, images (logo, hotel, service, & bullets), link formatting, etc. All pages share a consistent appearance. All text is easily readable. Site looks good when tested at 1366x768 screen resolution (and ok at higher resolutions) on a recent Chrome or Firefox browser.

Possible Deductions: Up to -50% for CSS in wrong style sheet, section, or put into the HTML, or for sections with validation errors, or for css/html copied directly from assignments other than A3P5, or from previous semesters or another site/student. -5 per missing bullet img, -3 for bullet bigger than 20x20px. -5 if hotel name not on logo. Up to -20 for unneeded HTML changes. -20 if not zipped or uploaded correctly.
